### Mouse pad:

70% Recycled post-consumer Polyester + 30% Polyamide (Nylon)

### Cardboard insert:

The residues from corn that are saved from landfill and used to make these paper replace up to 15% of cellulose from trees! Other ingredients are 40% post-consumer recycled fibre and cellulose.

### Foil bag:

The foil bag is made from PLA film, which stands for polylactic acid. PLA is a biodegradable and renewable material widely used in the plastics industry. It is primarily produced from cornstarch or other plant-based materials, making it a sustainable and environmentally friendly choice.
